

WL 30 articulated wheel loader

Sidewalk snow removal made easy

Wacker Neuson's WL 30 wheel loader is narrow enough to fit on sidewalks, and when you add one of the many easy to install attachments, snow removal is fast, easy and comfortable. The WL 30 offers added versatility...when winter's over you have an excellent multi-purpose wheel loader designed for construction, landscape and municipal applications.

See us on www.youtube.com/wackerneusoncorp

Economical Performance

- 4 ft. wide - fits on sidewalk (44" narrow wheel kit)
- Low operating costs: up to 30% lower fuel consumption compared to skid-steer loaders, plus long tire life
- Powerful 48-hp, 4-cy. diesel engine
- Four wheel drive with on-demand differential lock for excellent maneuverability in tight spots
- Articulated steering
- 17-gal/min. auxiliary flow
- Move pallets (3583 lbs. straight tipping load)

Comfortable to operate

- 6-working lights and rotating beacon improve visibility especially in low light
- Spacious, heated cab
- Safe and easy to enter and exit
- Excellent 360° visibility especially in confined areas

Outfit your WL 30 for the winter season with these dealer installed options

Item Name/description **Item Number** **List Price**
1. Slow Speed Control Kit **0181666** **\$1,050.00**
 Allows the operator to easily and precisely control the travel speed of the machine. With hand lever the operator can control the machine travel speed from a complete stop to full machine travel speed. This allows the operator to run an attachment at slow travel speed with full engine rpm.

2. Throttle Control Kit **0181678** **\$265.00**
 Allows the operator to control the engine RPM separate from the drive speed. The hand lever allows the operator to set the engine RPM from idle to full engine operating RPM.

When the slow speed control kit and throttle control kit are used together, attachments that require full engine RPM but slow travel speed can be maximized. Such attachments are snow blowers, brooms, etc.

3. Wire Harness Kit **0181681** **\$710.00**
 Integrates electrical functions needed to run attachments into the control lever. By activating a switch on the dash panel, the buttons on the control lever will operate the electrical functions of the attachments.

If using a broom attachment, please also order item #0181578 - \$130.00
 If using a snow blower attachment, please also order item #0181579 - \$385.00

4. Salt Spreader Mounting Kit **0181686** **\$175.00**
 Allows the salt spreader attachment to be mounted to the back of the WL30. The wire harness kit has a switch that will operate the salt spreader.

5. WL30 44" Wide Kit **0181683** **\$370.00**
 Includes fenders and mounting hardware to reduce the overall width of the machine.

6. Studs-Tire, Box of 100 **0181577** **\$145.00**
 Need 50 to 100 per wheel - just bolt on, easy to remove

7. Chain-Tire, 10x16.5 Set of 2 **0181576** **\$825.00**

Narrow Tires - 4 required **0181828** **\$375.00/tire**
 Factory-installed narrow tire option 0181829 \$400.00

Salt Spreader-6 cu. ft. cap. **0181643** **\$1,475.00**

Additional Flow Components (17 gpm)
