## Features and Options

Excellent maneuverability and smooth all wheel drive. The 850 wheel loader offers easy transport and maneuverability around the job site. This 9,921-pound unit features a long wheelbase for smooth driving and easy handling even across the roughest terrain. Counterweights are located far behind the rear axle for higher payloads and more stability. Four-wheel drive steering offers excellent maneuverability, overall machine stability and increased payloads. Machine design features placement of components for easy access and serviceability.

## Functionality and ergonomics provides operator comfort and high productivity.

This mid size dumper features a 3-metric ton payload capacity, power swivel material handling and hydrostatic permanent four wheel drive as standard. The hydrostatic drive system offers user-friendly controls, eliminating the need to change gears. The 3001 offers superior performance, the drive system automatically provides torque when and where it is needed. With no clutch to wear or gears to grind, hydrostatic drive eliminates the high parts and labor costs associated with replacing these components. Heavy duty design means reliability and outstanding performance
